

# The Same Boat

Don Henry / Carol Ann Etheridge

She was hurt by her only man  
So she split for the southern sands  
Once upon a long time ago  
Oh how the winds of fate can blow  
On the ocean reelin' lines  
I was workin' five to nine  
Early mornin' at the pier  
I found her there all in tears  
What is your story lonely one  
Runnin' away you're not the only one

## CHORUS

Cause I've known love to cause some pain  
We're in the same boat, the same boat  
I'll lend an ear if you'll lend a name  
'Cause it seems to me we're in the same boat  
Oh, oh the same boat

Gentle words convinced the girl  
To take a ride in this sailors world  
Where the dolphins and sea birds fly  
And the day meets a bluer sky  
A couple miles of the Gulf Coast Shore  
She told a tale I had lived before  
She had me down to a tee  
Scary similarities  
Standing breathless face to face  
The inevitable was taking place

## CHORUS

I've known love but not like this  
We're in the same boat, the same boat  
I feel forever in your kiss  
And it seems to me we're in the same boat  
Oh, oh the same boat

## BRIDGE

Navigating us back home  
We'll never have to steer alone again!

## CHORUS

Billowed by a perfect wind  
In the same boat the same boat  
Finally our ship's come in  
And it seems to me it's the same boat  
Oh, oh the same boat
