

# You Can Put Your Name On It

Don Henry / David Womack

I hear you heart has revolving doors  
But still my heart spins 'round for yours  
You can put your name on it, put your name on it

You say my spread makes you hot  
Well burn an "X" on your favorite spot  
You can put your name on it, put your name on it

Whatever I have is yours  
A virtual smorgasbord  
Take all you want just eat all you take  
And save me a place on your collection plate

You want my wheels you like my ride  
See how it feels when you're inside  
You can put your name on it, put your name on it

(solo)

Whatever I have is yours  
A virtual smorgasbord  
Take all you want just eat all you take  
And save me a place on your collection plate

My wooden Indian my mojo sack  
My voodoo herbs and propeller cap  
You can put your name on it, put your name on it

I hear you heart has revolving doors  
But still my heart spins 'round for yours  
You can put your name on it, put your name on it
